tractor O'Keefe, in speaking of the ECHO OF TYNER work, "because of the great height, no chances will be taken with the dangers of alternate freezing and thawing." A considerable part of the brick and stone work was placed in the building, after freezing weather had set in. The contractor explained that if hot mortar is used in freezing weather three will be no danger of defective cement or mortar work, f the mortar remains frozen until after it has become dry and solid. The danger lies in an unexpected thaw, before the mortar has become CEREMONY AT ST. MICHAEL'S perfectly set. One of the towers will be 85 feet in height, and the contruction of this portion of the new church, is considered by the contrac-tors as the most difficult portion and of gasoline, occurred Saturday, when Joseph Holzbauer Jr., went to Rentors, as the most difficult portion, and every precaution will be observed in that part of the work.

Changes of Plans

of the church, after the new edifice is acquired. The annual wood col- the fire. lection will be abolished, and other

After the new church is completed, St. Joseph's Hall the frame structure which has been used for church entertainments, annual suppers, and as a Number of Plymouth People Have meeting place for the various societies of the church, will be removed from its present site, to the northwest portion of the church lot, and the entrance will face Walnut street. The basement of the new church will be fitted up, for the use of societies etc., and the idea of tearing down the St. Joseph's hall, is being con-
